EDUCATION

Brandeis School of Business and Economics **Waltham, MA**
Candidate for Master of Science in Business Analytics 08/2026 - Expected Fall 2027
Relevant Coursework: Analyzing Big Data I, Python and its Application to Business Analytics, Marketing Analytics

University of North Texas | University of Toledo **Dallas, TX | Toledo, OH**
BAAS – Computer Science & Economics 08/2021 – 05/2025
Coursework: Algorithms, Data Structures, Software Engineering, Probability & Stats, Economics, DB Systems, Finance

TECHNICAL SKILLS

Programming: React, React Native, Node.js, TypeScript, Java, JavaScript, FastAPI, Flask
AI / ML & Data: Machine Learning, Generative AI, OpenAI, Groq | Python, R, SQL, Statistical Modeling, Excel
Tools: Git, Docker, Jenkins CI/CD, SonarQube, Firebase, JIRA, Scrum, Jupyter Notebook

WORK EXPERIENCE

Bank of America **Dallas, TX**
Software Engineer 07/2025 - 07/2026

- Created the interface for a risk assessment portal (React, TypeScript) used across compliance, product, and risk teams — controlling what each user can view and act on based on their role and review in progress
- Built the document management system for each risk assessment: teams attach, edit, delete, download, and share materials scoped to the relevant assessment; maintained 80%+ unit test coverage via Jenkins CI/CD and SonarQube

Global Technology Analyst Intern 06/2023 – 08/2023, 06/2024 – 08/2024

- Designed and delivered an HRCI validation system across two internal platforms, strengthening data security and regulatory compliance
- Surfaced workflow gaps across EPRMP's entitlement permissions and validation logic; implemented UI fixes adopted into production and managed full project lifecycle via JIRA and Scrum

Two Sigma College Mentor Connect **Remote**
Open Source Code Contributor – Intern 06/2022 - 08/2022

- Contributed to pandas by resolving GitHub issues, merging pull requests with test coverage, and enhancing documentation for mul, add, sub, and div operations with worked examples and performance analysis

Girls Who Invest **Remote**
GWI Scholar 02/2022 - 08/2022

- Selected for competitive program; completed institutional investor training through CFA Institute, Wall Street Prep, and Wharton Online in financial modeling, portfolio analysis, and investment management

PROJECTS

PathReview – Open-Source RAG Agent Contribution 07/2026 – 08/2026

- Fixed a silent data-loss bug in a RAG-powered portfolio review agent (headingless docs dropped from index); implemented fallback chunking strategy and unit tests. Tech: Python, RAG, pytest

EchoLingo – Accessible Language Learning App 02/2025 – 05/2025

- Built backend API and Grammar/Vocabulary/Pronunciation features for a voice-first app for vision-impaired users; served as Scrum Master and backend lead on a 6-person team. Tech: React Native, Node.js, Firebase, OpenAI
